

NEWS RELEASE

Board Advisors (Deutschland) and Viopas Venture Consulting acted as financial advisors and led a EUR 1.3 million equity financing in DyCare's innovative tele-rehabilitation and digital care solutions

Freiburg, Germany, and Uster/Zürich, Switzerland, February 22, 2022 – Board Advisors (Deutschland) AG and Viopas Venture Consulting GmbH acted as financial advisors and contributed EUR 785'000 in an equity financing of EUR 1.3 million for Bio-Sensing Solutions' DyCare. The financing was conducted under a mandate to Board Advisors and the investment contribution was executed via newly created CareInvest AG, a Swiss-based holding structure of Viopas Venture Consulting. The proceeds of the financing will support the commercial roll-out of the company's innovative digital physiotherapy and tele-rehabilitation product ReHub™. Simon Nebel, PhD, Partner at Board Advisors and Managing Partner at Viopas Venture Consulting, will join the Board of Directors of Bio-Sensing Solutions, the legal owner of DyCare.

"Representing a consortium of experienced IT entrepreneurs, we are very excited about the innovative approach of DyCare providing breakthrough tele-rehabilitation solutions to caregivers and patients with musculoskeletal diseases and injuries," commented **Simon Nebel, PhD**, newly elected **Board member of Bio-Sensing Solutions/DyCare**. "The investment proceeds provided by CareInvest will be dedicated to accelerate the international commercial rollout of DyCare's lead product ReHub."

"We are very pleased to welcoming the new investor group represented by CareInvest and Dr. Simon Nebel as new Board member," added **Silvia Raga, PhD, Founder and CEO of DyCare**. "ReHub already enjoys a strong regional market position with support from leading hospitals and physiotherapy centers in Spain, Italy and other European countries. The value added by ReHub to accelerate the physical recovery process to the satisfaction of patients and caregivers is already recognized by prominent insurance companies, such as DKV. The pandemic has accelerated the uptake of digital health solutions and we've seen huge interest in our products. This financing will help us to support our SaaS business model for enterprises and open new business lines such as digital therapy services for insurers and employers."

About Bio-Sensing Solutions, DyCare and ReHub™

Bio-Sensing Solutions' DyCare is a digital healthcare provider for the physiotherapy and musculoskeletal care market who launched ReHub in 2021, a B2B clinically-proven digital platform that enables home-based physical rehabilitation for patients with musculoskeletal conditions.

Thanks to its advanced technology in computer vision, tracking sensors, and machine learning algorithms, ReHub increases patients' adherence and achieves better therapeutic outcomes through personalized treatment. With more than 547,000 therapeutic exercises delivered, ReHub has a proven record on scalability providing its services to healthcare providers, insurers, and individual practitioners.

Renowned health insurance companies, such as DKV, and hospitals, such as Vall d'Hebron, Hospital Clinic (Barcelona, Spain), and prestigious physiotherapy centers, such as Vital & Clinic, Rusconi Benessere, Top Physio (Roma, Italy), among others, already trust ReHub.

DyCare is owned by Bio-Sensing Solutions S.L. (Barcelona, Spain). For more information, please visit www.dycare.com and www.telerehub.com.
